Danube GeoHeCo Project Final Transnational Conference

AGENDA

Time slot	Presentation topic	Speaker
9:30 – 10:00	Welcome and registration <i>Danube GeoHeCo poster exhibition: Pilot investments & Key project results</i>	
10:00 – 10:15	Welcome speech and opening remarks	Aleksandar Dunderski, director Regional Development Agency Backa
10:15 – 10:30	Project overview: Strategic context and policy relevance	Danijela Vrtarić, assistant director Medjimurje Energy Agency Ltd.
10:30 – 10:45	Project reflections and significance within the Interreg Danube Region Programme	Horst Schindler, project officer Interreg DRP Joint Secretariat/Managing Authority
10:45 – 11:00	Overview of the current EU geothermal policy framework	Marianna Jakab, policy officer European Commission Directorate-General for Energy – DG ENER (online)
11:00 – 11:15	European heat pump market and policy developments: Current state and future outlook	Maria de los Milagros Garcia Salciarini, policy officer European Heat Pump Association AISBL
11:15 – 11:30	Mobilising local and regional communities for shallow geothermal investments in heating and cooling: Deployment desks for active stakeholder engagement	Kristjan Šadl, expert associate Local energy agency Pomurje
11:30 – 11:45	Unlocking shallow geothermal potential in the Danube Region: Key insights from the Danube GeoHeCo Transnational Action Plan	György Márton, managing director CROST Regional Development Nonprofit Ltd.
11:45 – 12:00	Coffee break for participants <i>Danube GeoHeCo promotional videos highlight</i>	
12:00 – 12:30	The role of digital solutions in market deployment and technology optimisation of shallow geothermal energy systems for heating and cooling: digital platform with built-in virtual marketplace and IT decision support tool	Artem Daminov, software developer University of applied sciences Burgenland Luka Perković, associate professor University of Zagreb, Faculty of mining, geology and petroleum engineering

<p>12:30 - 12:55</p>	<p>Advancing the deployment of shallow geothermal energy through pilot actions supported by IT decision support tool: case studies from Danube GeoHeCo pilot investments</p>	<p>Tomislav Kurevija, full professor <i>University of Zagreb, Faculty of mining, geology and petroleum engineering</i></p>
<p>12:55 - 13:45</p>	<p>Panel discussion: “Future pathways for Shallow Geothermal Energy in the Danube Region”</p>	<p>Žarko Petrović, Team Leader for Resilient Development <i>United Nations Development Programme - UNDP, Serbia</i></p> <p>Mitja Janža, researcher specialized in hydrogeological modelling <i>Geological Survey of Slovenia</i></p> <p>Luka Boban, assistant professor <i>Faculty of Mechanical Engineering and Naval Architecture, University of Zagreb</i></p>
<p>13:45 - 13:55</p>	<p>Conclusion and final words</p>	
<p>13:55 - 14:40</p>	<p>Networking lunch & refreshments</p>	

*Please note that the event will be photographed and recorded for project monitoring and reporting purposes.

**Simultaneous interpretation between English and Serbian will be provided during the event.
